Art Unit: 3765

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 10 "plats" has been changed to --plates--.

In claim 7, line 15 "plats" has been changed to --plates--.

2. Applicant's election of Group I, claims 1-11 in the reply filed on December 9, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
3. This application is in condition for allowance except for the presence of claims 12-18 to an invention non-elected without traverse. Accordingly, claims 12-18 have been cancelled.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note particularly, the foam circumferential members of Cho, German publication to Wenzel et al. and Prater and the reinforced padding of Steigerwald et al., Abraham et al., Mullins, Marietta, Fitzpatrick and Leddick, III.
5. The following is an examiner's statement of reasons for allowance: the closest prior art of record the reference to Hisataka fails to teach the additional limitation of the plurality of impact plates between the circumferential member of foam material and the spaced apart internal force absorbing pads.
